
CONSULTANCY

Dr. Pradeep Kumar
Independent Professor
pmsuccess81@gmail.com

Consultancy is not only promotional access, but profit to gain training that builds future,

Trained can have access to work, to earn future, Checked behaviour, what else is support to measure,

Compiler in a computer programming language to complete the circuit,

The database can connect through data, to analyze to display the lightning result,

The query is asking an expert system, but human behaviour can bill heavenly if somebody can ask,

So keep ready your database from childhood to meet every demand,

Real is on time, the reel was past time, pen drive always shine,

Smart is AI programming to call itself also a phone that survived after every version,

Consult is not an insult but acquiring it to quit shy of to get connected for people song for democracy,

Laptop, the smartphone is not making us different for that easily available on the Internet,

Consultancy understands market demand to make ideas of the market for mankind to utilization,

Template building is the start point, what to feedback and earn in a short time,

But to earn heavily, were to give full time and what is the coding choice, soft skill dyes, the degree is requirements, rest, and time is money, with the blessings of god consultancy.

Complexity to prove the involvement of everybody at once,

Complexity to prove if we are new to the problem,

Completely to prove if we are time and space-conscious,

Complexity to solve the path to become fast and easy after meetings,

Social complexity is the number of people that participate,

Political complexity is the number of standards that improve people administration,

Child complexity is the number of standard steps to learn to show social up gradations, teaching complexity is the number of case studies to establish learning in campus behaviour,

Country complexity is the number of international businesses that can cross border behaviour,

Law complexity is a change in people's need to adjust the development in the common establishment,

Zeal complexity is progressed pay commission in expectation from available possibilities,

New complexity is the place to leadership that creates a group acceptance for conquered directions,
